

Directions: Navigate to the 4Sight Reports section of EdInsight. Select '4Sight Math/Reading by District' (the first 4Sight report), then select 'By Grade Level.' Please answer the following questions using the data in front of you.

Teacher Name:

Today's Date:

Course Name:

Grade:

1. What was the Math | Reading (circle one) percent average for your subject on the last test? Was that an improvement over the previous test? (yes / no) _____

2. Which category in Math | Reading had the highest percent on the last test? _____

3. Which category in Math | Reading had the lowest percent on the last test? _____

4. Which category in Math | Reading had the most percent improvement? _____

5. Which category in Math | Reading had the least percent improvement? _____

6. Write a short explanation of what you see overall after looking at your grade level results.

7. At this time, please comment as to any curricular issues that may show up in this data. In other words: Is the data showing what you would expect from a curricular perspective? Please explain.
