**The OnHand Schools EdInsight 4Sight Item Analysis Report**

The EdInsight Software now supports 4Sight Item Analysis at the individual student level! This Item Analysis report is ONLY available in EdInsight. This report enables teachers to see individual classroom performance at the student level. All students and all answers are available, whether the question is answered correctly or not. The eligible content that corresponds to each question is listed next to it. Questions answered incorrectly are indicated in red, enabling

teachers to clearly see what topics his or her students are having trouble with and then differentiate instruction accordingly. A small summary of the classroom's strengths and weaknesses is highlighted at the top of the page. Details of each test edition, code, testing period, course and testing grade are included on every report. Contact OnHand Schools today if you would like more information about our unique Item Analysis Report, or would like to request a report for your classroom/district.
