- No cost for a (1 year) district wide pilot of the EdInsight Lesson Planner /Curriculum Mapper

**Cost Breakout:**

EdInsight is typically priced per student but because of the IU group license the annual license fee is \$12,500 per district. The initial setup fee of \$6,000 will be covered by the grant. All first year EdInsight License costs are covered by the grant. Districts must provide a MS SQL license and other software, if district has an existing software license OnHand can work with that software. District must provide a computer server that can run MS SQL. Again if the district has the equipment OnHand Schools can work with the existing computer server. In year two and three of the project there is a discount for the EdInsight annual license fee.
